

County Commission Mayors Report 6/22/15

Last Wednesday the Washington County Industrial Development Board approved a qualified expansion of the 2006 PILOT agreement with Koyo Corporation. This is the second expansion approved under the original agreement. This expansion retains 154 existing jobs, creates 11 new full-time positions and adds investment of \$8,000,000 for new equipment.

We are very appreciative to the management of Koyo for their continued investment and employment in Washington County.

A quick update on the Dentsply transaction. It is scheduled to close next Monday.

Don't forget the Budget workshop Thursday at 6:00 in this room.

We will be going over the proposed budgets for General, Debt Service, Highway, Solid Waste and Schools.

We will also be presented a proposal regarding a new salary plan for the Sheriffs department.

This will be the place to ask questions, find out details and hopefully get the answers you need to make an informed vote, when the time comes.

Also remember beginning at 8:30 tomorrow morning at the Millenium Center we have a TIF workshop led by our TIF Attorney, Tom Trent. And immediately following we have the TVA Economic Development 101 presentation.
