Jim Wheeler, Chairman of the Washington County Public Safety  
Committee

As Chief of the Limestone Volunteer Fire Department I would  
like to request county funding for the installation of three fire  
hydrants in our fire district.

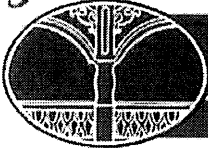

One each hydrant installed on Corby Bridge Road, Ward Rowe  
Road, and Bill West Road.

Fire hydrants installed on these roads would greatly enhance our  
firefighting capability and would help all of the citizens of these  
communities.

Thanks for your consideration of this request.

Washington County Public Safety Chairman

The Jonesborough Water Department recently finished some water line development on Sliger Rd. Since this upgrade it is now feasible to review our fire hydrants in the area. We have identified the need for a hydrant on Sliger Drive. Mike McCracken the Jonesborough Water Department Superintendent and Lt. Freeman with the Jonesborough Fire Department are finalizing the final location request. The most likely location looks like the area of 136 Sliger Drive.

Mr. McCracken has submitted plans to TDEC for approval. Once plans for the hydrant are approved, and payment for a hydrant has been submitted by the county, the Town will install the hydrant. We are always appreciative of any new funding from the county to assist in firefighting operations for all Washington County Volunteer Fire Departments. I would like to formally request your consideration for funding. If approved, we will move forward with the instillation in a timely manner. Should you have any questions, or need additional information, please don't hesitate to contact my office.

Sincerely,
